NETWORKING and DEVELOPMENT

The Exhibition

Materials, products and applications are displayed throughout the conference venue. Support posters and brochures are available. Members and partners contribute product samples to hold and examine. Equipment manufacturers and service providers are available to answer your questions.

The Conference Sessions

Speakers include commercial leaders, NGOs, government representatives, researchers, material and product developers as well as collaborators from support industries. Delegates are invited to ask questions and clarify points. The conference is designed to provide an open discussion of the current events in the tyre recycling industries.

The Spotlight

The Spotlight is a highlight that has been added to focus on innovative new materials, products and applications that are still being developed for commercialisation. Speakers will have 15 minutes to describe the unique features of their designs and how they will contribute to market growth.

EU Projects Networking

The 2023 programme offers many Networking opportunities. The first will take place on Wednesday 29 March during the session **working group meetings** of the **RE-PLAN CITY LIFE Project**. The second will be part of the cocktail reception on Thursday 30 March. Both events will consist of **networking meetings** in which each pre-registered participant company will have a chance to meet new potential partners.

Cocktails, Dinner and Lunches

Cocktails receptions, the gala dinner, morning coffee, coffee breaks and lunches are part of the conference package. The Welcome Reception and Gala Dinner offer a pre-conference evening to meet and greet speakers and delegates in an informal atmosphere. Delegates are encouraged to invite a guest to share the Gala evening. Lunches are reserved for speakers, exhibitors and delegates.

The 28th European Conference on tyre recycling

**Tyre Recycling
in a changing economy:
*what are the
opportunities?***
