### **Meeting of the founders of IASLIM**

Initiatives for the future

Association's founders have discussed the Statute and invite new members in the organization. They discussed **initiatives for the projects in the period from 2019 to 2022**. These initiatives encompass: • research and development of the standards of sport and leisure infrastructure, • development of the system of evaluation of investments and management of sport and leisure infrastructure, • development of the social management of communal sport and leisure centers, • Erasmus+ projects for the Collaborative Partnerships in the field of Sport, • training courses for the managers of sport centers as implementation of the International school of sport and leisure infrastructure management, • participation at the »Bienale de Arquitectura 2019 en Santiago« and the seminar »La Accesibilidad Universal en los recintos deportivos«, • organization of the international conferences »Sport and leisure infrastructure«.
