Strategy of sport and leisure infrastructure development

Investments in the swimmingpools in FYR Macedonia

Government Agency for youth and sport, National sport federations and IASLIM have organized the meetings with the representatives of the Municipalities and local communities about development of sport and leisure infrastructure in local communities. The partners prepared a seminar and round table to discuss future activities in sport and infrastructure development. Over 50 public officials and sport managers participated at the seminar „Strategy of swimming sport and infrastructure development in FRY Macedonia“. The Government has adopted a **Program for the construction of swimming pools in the country**. IASLIM Project Team will offer transfer of knowledge and international experiences in the fields of investment and management of sport and lesiure infrastructure.
